### MYTHS WE'VE HEARD ON THE STREETS AND FACTS TO BUST THEM UP!

#### MYTH

"People with mental illness shouldn't work."

#### FACT

People with mental health conditions are just as productive as other employees. Employers who hire people with mental health conditions report good attendance and punctuality as well as motivation, good work, and job tenure on par with or greater than other employees.

#### MYTH

"I will lose my disability benefits, income and health insurance, which I have worked so hard to obtain!"

#### FACT

Not so fast! SSA offers comprehensive work incentives which allows you to keep your benefits for quite a long time. Should you be unable to continue working as a result of your disability, SSA may restart your benefits. Because some SSA rules may be hard to understand, all states have benefit planning resources to help you get started. <https://www.ssa.gov/redbook/>

#### MYTH

"I have never worked before, so I have no skills an employer needs."

#### FACT

People with disabilities with little or no work history do find work that meets their strengths, preferences, abilities, and skills. Supported employment services focus on these factors to help you seek and find competitive employment in the community.

#### MYTH

"My family does not want me to work because they fear my symptoms will get worse."

#### FACT

Recent studies found that employment actually improves symptoms! Work offers less social isolation and a sense of purpose, just to name two benefits! Work is more than just a paycheck, and this brochure offers helpful resources for your family and friends to be supportive and understanding of your career goals.
